

SCIENCE Cafés

7:00pm Big Shotz Tavern

109 S. Stratford Road, Winston-Salem

Informal talk by local experts at local gathering places. Enjoy dinner on your own, then meet new friends, learn about the latest issues in science, speak your mind, chat with a scientist in plain language, and you can even talk with your mouth full if you wish!

TUESDAY **SEPTEMBER 15**

LIFE ON THE EDGE Plant Life and
Climate Change

How do plants manage to live at the most extreme environments of the world? Dr. Smith leads an international group of scientists in some of the world's most remote places, trying to determine how to coordinate human development with ecosystem sustainability. **William K. Smith, Ph.D., Professor and Charles H. Babcock Chair of Botany, Biology Department, Wake Forest University**

TUESDAY **OCTOBER 20**

ALL YOU EVER Wanted to Know About Stem Cells
But Never Dared Ask.

Colin Bishop, Ph.D., Professor, Institute for Regenerative Medicine, Wake Forest University Baptist Medical Center

TUESDAY **NOVEMBER 17**

THE BIOLOGY OF STRESS "That which does not kill
us makes us stronger"

**Michael Tytell, Ph.D., Professor, Neurobiology & Anatomy
Wake Forest University School of Medicine**

Friedrich Nietzsche (1844-1900)

Produced by SciWorks, Reynolda Gardens and Sigma Xi.
Supported in part by the PBS program NOVA scienceNOW.
